

Introducing A.W. Jenkinson's latest 480hp Mobile Chipper, for all your Site Clearance and Chipping Requirements.

Self contained unit with quick set-up times, allowing ease of access in confined sites, coupled with high speed chipping, and a large capacity in-feed for Round wood, Slab wood, Offcuts, Brash and Whole-tree processing.

Oversized logs can be dealt with using the on-board splitter.

From small one-off jobs to regular chipping contracts A.W. Jenkinson can meet your operational requirements utilising our extensive in-house transport and logistics services. Or we can chip material to your own specification for your own use.

Please contact us for further details.
