

Fencing Products.

Sawn Timber.

Sawdust for animal bedding, panelboard and biomass.

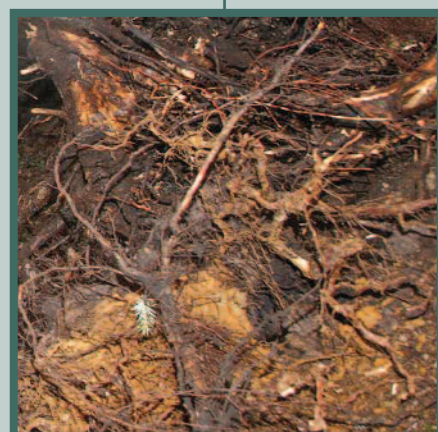

Wood shavings for equestrian, poultry and livestock.

## THE WHOLE TREE

Hardwood or softwood, any species, all qualities; the A.W. Jenkinson group makes use of every part of the tree. Green material can go to compost; roundwood to woodchip and shavings; stump material, branches and twigs to biomass; slabwood, offcuts and trimmings to panelboard; and bark to horticulture and amenity uses.

Branches, topwood and stumps recovered for biomass.

Woodchip for paper, panelboard, biomass, landscaping and amenity.

Slabwood and offcuts, converted to woodfibre for panelboard and biomass.

Bark for landscaping, amenity, horticulture and other specialist applications.
